Solutions for swimming pools,  
and wellness areas

# Aquae Soluzioni per piscine, docce e aree wellness

· Aquae: solutions for swimming pools, showers and wellness areas ·  
Aquae: solutions pour piscines, douches et spas · Aquae: Lösungen für  
swimming pools, duschen und wellness-bereiche · Aquae: решения  
для бассейнов, душевых и зон велнеса

La linea Aquae è pensata per soddisfare tutte le necessità progettuali negli spazi caratterizzati dalla presenza d'acqua, quali piscine, docce e aree benessere. Vantando una scelta molto ampia e versatile di look, materiali e pezzi speciali, Aquae permette di realizzare i più svariati progetti all'insegna della massima continuità estetica e tecnica, partendo dai bordi vasca e dalle griglie per estendersi agli ambienti wellness nella loro interezza. Le qualità del grès porcellanato Caesar assicurano inoltre ottimi risultati in termini di tenuta antiscivolo, resistenza, salubrità e igiene. Il risultato è un liquido abbraccio tra stile, tecnologia e prestazioni che genera una intensa sensazione di benessere.

The Aquae line has been designed to fulfil all the needs of spaces exposed to water, such as swimming pools, showers and wellness areas. Thanks to its particularly broad and versatile selection of styles, materials and trim pieces, Aquae is ideal for the most diverse projects since it guarantees both aesthetic continuity and technical performance, starting from swimming pool borders and from drainage grids to extend to wellness areas under every aspect. The quality of Caesar porcelain stoneware ensures excellent results in terms of non-slip properties, durability, healthiness and hygiene. The result is a liquid embrace of style, technology and performance that generates an intense feeling of wellness.

La ligne Aquae a été conçue pour satisfaire toutes les exigences liées aux projets élaborés pour des espaces caractérisés par la présence d'eau tels que les piscines, les douches et les zones de bien-être. Avec sa vaste gamme polyvalente de looks, matériaux et pièces spéciales, Aquae permet la réalisation de projets les plus divers sous le signe d'une continuité esthétique et technique optimale, à partir des margelles et des grilles jusqu'aux espaces bien-être dans leur intégralité. Les qualités du grès cérame Caesar garantissent en outre des surfaces antidérapantes, résistantes, salubres et hygiéniques. Le résultat, qui conjugue style, technologie et performances, procure une forte sensation de bien-être.

Die Linie Aquae wurde für all jene Bereiche konzipiert, in denen das Vorhandensein von Wasser besondere Herausforderungen stellt, wie etwa Swimming-Pools, Duschen und Wellness-Bereiche. Dank der reichen und vielseitigen Palette an Varianten, Materialien und Formstücken lassen sich mit Aquae die unterschiedlichsten Projekte im Zeichen maximaler optischer unter technischer Kontinuität gestalten. Vom Beckenrand und den Überlaufrippen bis hin zu den Wellness-Bereichen im Allgemeinen. Die besonderen Eigenschaften des Feinsteinzeugs von Caesar gewährleisten zudem hervorragende Ergebnisse in Sachen Rutschfestigkeit, Beständigkeit, Gesundheit und Hygiene. Das Resultat ist ein rundum harmonischer Kontext, der mit Stil, Technologie und Leistung besticht und in dem sich der Gast einfach wohlfühlt.

Линия Aquae была разработана для удовлетворения всех требований при проектировании пространств, характеризующихся присутствием воды, таких как бассейны, душевые и велнес-зоны. Опираясь на очень широкий и разветвленный выбор эффектов, материалов и специальных изделий, Aquae позволяет реализовывать самые разнообразные проекты в духе максимальной эстетической и технической согласованности, начиная с бортов и решеток для бассейнов и вплоть до полного оформления велнес-пространств. Кроме того, высокие характеристики керамогранита Caesar гарантируют отличные результаты в плане сопротивления скольжению, прочности, обеспечения здоровых условий и гигиены. Таким образом, стиль, технология и эксплуатационные свойства объединяются в единое целое, создающее сильное ощущение велнеса.

# Style board

La gamma Aquae conta 3 ispirazioni materiche e forma un'ampia tavolozza, ricca di colori ed eterogenea negli stili: un sistema compositivo che schiude le porte alla creatività. Aquae è la garanzia di trovare sempre la risposta più calzante ai gusti e alle sensibilità più esigenti nelle aree piscina e benessere.

The Aquae range takes its inspiration from 3 different reference materials to become a complete palette of colours and different styles: a compositional system that opens the doors up to creativity. With Aquae you will always be sure to find the solution for wellness areas and swimming pools that best suits your taste and sensitivity.

La gamme Aquae s'inspire de 3 matériaux différents et forme une large palette avec de nombreux coloris et des styles hétérogènes: un système de composition qui laisse libre cours à la créativité. Aquae est en mesure de satisfaire les goûts et les sensibilités les plus exigeants en ce qui concerne les espaces piscine et bien-être.

Das Aquae-Sortiment umfasst 3 stoffliche Inspirationen und bildet eine reiche Palette, die mit vielen Farben und unterschiedlichen Stilen aufwartet: ein Kompositionssystem, das der Kreativität alle Türen öffnet. Mit Aquae finden Sie garantiert stets die passende Lösung für den Geschmack und die Sensibilität selbst der anspruchsvollsten Gäste in Swimming-Pools und Wellness-Bereichen.

Линейка Aquae воспроизводит 3 вдохновивших ее материалов и создает широкую палитру, состоящую из многочисленных цветов и разнообразных стилей: такая система полностью раскрывает двери творчеству. Aquae - это гарантия того, что вы всегда сможете найти наиболее подходящий ответ на самый требовательный вкус и необходимости в вопросах, связанных с бассейнами и велнес-зонами.

# Due spessori per molteplici esigenze

- Two thickness options for many requirements · Deux épaisseurs pour des exigences multiples · Zwei Stärken für die Verschiedensten Erfordernisse · Две толщины для многочисленных требований ·

Tipologia di vasca Type of pool	Aextra20		Spessore tradizionale Standard thickness	
	Bordo Edge	Griglia Grid	Bordo Edge	Griglia Grid
Sfioro Overflow	Round	Flexi_new Blade Shape_new	Step Pool Bend	Flexi_new Blade
Sfioro Overflow	Round	Stripe	Step	Shape_new
Sfioro Overflow	-	-	Step Pool Bend	Overlay Wave
Skimmer Skimmer	Round	*	Step Pool Bend	*
Sfioro interno (tipo wiesbaden) Pools with internal deck-level edge (wiesbaden type)	Round	*	-	-
Cascata Waterfall	-	-	Cascade	Flexi_new Blade Overlay Wave

\*In questa tipologia di vasca, la griglia non è necessaria. Grids are not required for this type of pool. La grille n'est pas nécessaire pour ce type de bassin. Bei diesem Beckentyp ist kein Rost erforderlich. Чашы этого типа не нуждаются в решетке.

**Due differenti spessori permettono di trovare il punto di sintesi tra libertà espressiva e prestazioni eccellenti in tutti gli ambienti: Il 20 mm, per soluzioni outdoor che coniughino prestazioni e ricercatezza estetica; lo spessore tradizionale, in un ricchissimo ventaglio di collezioni e colori, per avere una totale libertà progettuale nelle aree wellness interne e esterne.**

Two different thickness options will allow you to find the right meeting point between freedom of expression and excellent performance in all environments: the 20 mm thickness for outdoor installation, which combines technical performance and aesthetic appeal; the conventional thickness, in an exhaustive range of collections and colours, to offer you total freedom of design in interior and exterior wellness areas.

Deux épaisseurs différentes permettent de trouver le point de synthèse entre liberté d'expression et hautes performances dans tous les espaces : l'épaisseur de 20 mm, pour des solutions d'extérieur en mesure de conjuguer performances et raffinement esthétique ; l'épaisseur traditionnelle avec un très riche éventail de collections et de couleurs pour une liberté totale dans la réalisation de projets pour zones de bien-être extérieures et intérieures.

Zwei verschiedene Stärken bringen gestalterische Freiheit und exzellente Leistungen in jedem Ambiente in Einklang: 20 mm für die Verlegung im Freien, die Optik und Leistungen vereinen, und die normale Stärke in einer umfassenden Auswahl aus Kollektionen und Farben. Für absolute planerische Freiheit in den Innen- und Außenanlagen von Wellness-Einrichtungen.

Две разные толщины позволяют найти точку соприкосновения свободы выражения и отличных показателей в любых условиях: толщина в 20 мм используется для решений на открытом воздухе, предлагающих высокие характеристики и эстетическую изысканность; традиционная толщина, выпускаемая в широчайшем ассортименте коллекций и цветов, предоставляет полную свободу при разработке проектов крытых и открытых велнес-пространств.
