

Join Collection

Real imagination

Join is a collection of surfaces that combines creativity and imagination with the practical characteristics of the material. The collection takes the soft, contemporary minimalism of concrete-resin and expands it using a rich, and vibrant new colour range.

REVIT MODEL INSTRUCTIONS

Thank you for downloading the Ceramiche Caesar Revit products.

To transfer Ceramiche Caesar Material Library to your Revit file:

Save the .adsklib file in your desired location (computer or network). In your Revit project ribbon menu choose Manage>Materials>Open Existing library. Choose the downloaded library from its location. Load materials of your preference into the project either by dragging them to material box or using the loading arrow. Click OK.

Please be sure to download the "Join.zip" file, extract it and copy texture files to the following location: C:\Program Files (x86)\Common Files\Autodesk Shared\Materials\Textures\Ceramiche Caesar.

To transfer the Wall types and their materials:

Make sure your project and the Ceramiche Caesar Showcase project are open in the same session of Revit. In your project, go to Manage tab and click Transfer Project Standards. When the “Select Items To Copy” window opens, select the Ceramiche Caesar Showcase project. Click “Check None” and find the “Wall Types” in the menu to check. Click OK. On the “Duplicate Types” window select the “New Only” Option. All Wall types and their materials are now in your project ready to be used.

To transfer an individual Wall with its materials:

If only one product is needed, you can copy and paste the desired wall type (under Project Browser > Walls> Basic Wall) by right-clicking it and selecting "Copy to Clipboard". Go to your project and paste it (Ctrl-V)
